Product Data-Sheet

No. 9405 - R - 03

Edition: Oct 2009

1. Application Sector

DAMTEC® comfort has unique compression recovery capability, is comfortable and has exceptionally resilient characteristics and makes it to the ideal underlay for textile carpets in household and project applications. The underlay can be glued on both sides or the carpet can be stretched over it.

2. Material

Fine granules of recycled rubber foam with PU elastomer bonding agent

3. Appearance

colour: anthracite
surface: closed, smooth

4. Dimensions/Tolerances

width: 1250 mm ± 1.5 %
length: ± 1.5 %
available thickness: 4, 6, 8, 10 mm ± 0.3 mm
density: approx. 550 kg/m³

Product Data-Sheet

No. 9405 - R - 03

Edition: Oct 2009

5. Physical Characteristics

| | | |
|--------------------------------|-------------------------------|----------------|
| tensile strength: | approx. 0.4 N/mm ² | (EN ISO 1798) |
| elongation at break: | approx. 70 % | (EN ISO 1798) |
| service temperature range: | - 30°C to 80°C | |
| flammability rating: | B 2 | (DIN 4102-1) |
| heat transmission coefficient: | 0.06 m ² K/W | (ISO 8302) |
| volume resistance: | 12000.00 MΩ | (DIN 54345 T6) |
| swivel chair wheel test: | for permanent use | (glued) |
| use on stairs: | for household applications | (glued) |

6. Installation

Installation is to be carried out in accordance with the *DAMTEC*® installation instructions.

Castor chair behaviour and residual indentation after static loading of the flooring can change in accordance with the insulating underlay used.

Only use underlay approved by the floor manufacturer.

Prior to any installation work, carefully read and observe the usage instructions and processing guidelines of the adhesive cement and floor finish manufacturers.

In case of doubt, please contact the manufacturer's applications engineering department for advice.

DISCLAIMER:

The information provided is intended only as a summary and general overview on matters of interest. The information is not intended to be comprehensive nor does it constitute expert advice. KRAIBURG RELASTEC shall not be liable for incidental and/or consequential damages directly or indirectly sustained, nor any loss caused by not complying with relevant industry/product standards and improper use of any Damtec® products. Due to varying construction methods, any other circumstances not stated above should be brought to the attention of KRAIBURG RELASTEC for review. For suitability to the prevailing site conditions, it is advised that certified testing should be conducted. It is recommended to seek further advice on your application with our technical staff prior to use.
